The Conference of the Birds continues with Jacob and Noor when Jacob's last connection with his grandfather's work dies. With H's last words he tells them to go and bring Noor to a woman named V. Jacob's action filled adventure continues with his friends as the world gets more and more dangerous.

Readers that have read all the books in the series before this one would like this book, and I would definitely suggest reading all of the books before this one. I liked this book a lot. The reason I like this book was because of the big elaboration on the character Noor. Not only was Noor part of a prophecy, but she also had to be protected, making me more encouraged to continue reading. It also said that they could possibly resurrect Caul making the book even more exciting. This book made me eager to read the next book when it comes out.
