Mystery

Nonfiction

Historical fiction

Other: _____

This is the true story of a Holocaust survivor named Elie Wiesel. This is a story following him from when he is first deported from his home, to when he is saved by the Americans. In this story, Elie describes everything he experienced during the Holocaust.

This is a very emotional story and it is very difficult to read because of the descriptions and all the different things Elie is seeing. This is a very graphic book, but it is well written. I would recommend this book to a person who would like to learn more about history, war, and specifically the Holocaust. This book is not a book for a person who would feel uncomfortable with violence and killing. This book is very informative and is filled with information for people who would like to learn more. This book is good, but I prefer to read contemporary fiction and some parts of the book made me feel uncomfortable. Overall, this is a good book, I would just not advise it for someone who might not be able to handle it.
