The book is taking place in the year 2036. The book is about a kid named Emmett who is unprivileged. The company Babel Communications offered him money he desperately needs to go to space to mine Nyxia. While training, Emmett meets some kids who become enemies and friends. They travel to a space station to land on the planet Eden to mine the metal. There is some drama, romance, action and adventure in the book.

I believe anyone who likes sci-fi, fiction, action/adventure and fantasy should read this. Anyone who likes these genres should read it because it shows how these kids are trying to make it in life and would do anything to make it happen. Also, the book will make get on your toes.
