The Scorch Trials is a fiction novel set in a world of disaster. After escaping the maze in the first book of the series, the Gladers are sent into a place called the Scorch. They are told about sun flares that caused many people to die and make many parts of the world a desert Scorch. Thomas, the protagonist, and his friends from the Maze are told they have 2 weeks to cross the Scorch and make it to the safe haven. Along the way, they meet dangers, allies, and deadly storms. Time is flying and they need to make it to the safe haven or they will be left in the Scorch to die by a disease called the flare.

I really enjoyed this book and I would recommend reading it after the first book, which is also an amazing book. I would recommend the book for kids 10 and up only for the fact that there is mild language in the book. The book is a long read, but definitely worth the time. Any reader that enjoys action and adventure will like this book. I rate this book a 9/10 because it is exciting and makes you want to keep reading.

In conclusion, the book is definitely worth reading if you are interested and have the time. Even though it is a long read, I would encourage you to read it.
