In the captivating universe retelling of Cinderella, Ashley Poston, the author of Geekerella, shows the readers Cinderella through the eyes of Danielle. A girl named Danielle (Elle) lives with her step-mom and twin step-sisters. They live in Danielle's childhood home, which was owned by her parents who had passed away. Elle and her parents were big fans of this show called Starfield. The show announced that there was going to be a new actor as the male lead, named Darian Freeman. Elle dislikes Darian despite the fact that the unknown number she's been texting has been Darian!. They get along together over text but do not know each other's identity. Later on, a cosplay contest is going to be held at a con for Starfield. Elle is going to enter so she could leave her wicked step-mother. Little does she know Darian is going to be a judge in the contest.

I personally loved reading Geekerella. It was an amazing book, the author had done a magnificent job with the retelling of Cinderella. One thing that readers might dislike about the book is that it has some swear words. It should be fine if you avoid them while reading (if you want), it wasn't a big deal for me when I read it. The genre of the book is fiction. If you dislike fiction books I would still suggest you try reading Geekerella. I found it enjoyable and funny. If you enjoyed watching Cinderella or reading fictional books, I would definitely recommend Geekerella to you.
