All Rights Reserved is a dystopian novel about a future that is very different from now. In the book, society has developed quite a bit and people are charged with every word they say once they turn fifteen. The main character, Speth Jime, turns fifteen and makes the decision to stay silent, and not say a word. The novel follows what happens to her because of this decision.

I think that someone should read this book if they are big on Dystopian novels or believe in protesting for rights. A reader that would enjoy it would be someone who is prepared for a complicated plot and likes books that are both realistic but with a hint of dystopian technology or drama involved.
