Out of My Heart by Sharon M. Draper is about a girl named Melody Brooks with cerebral palsy. It's a follow up to Out of My Mind. In the book, Melody interacts with fireflies and decides to take a risk and try something new, something different. She attends camp, there she discovers a place of freedom and hope along with many new people and friends.

I would definitely recommend this book to those who like the theme of friendship and finding a place to belong. Finding yourself in the way you do your own things. It's very inspiring for many, how Melody goes out there, despite being nervous, and making a place a place for herself. I liked it.

I liked how the author stretched the development of the characters and how after each chapter, they leave you with some type of emotion. In my opinion, it's truly and genuinely a satisfying book to read that can thrill you and calm you all the same.
