Jermaine, also known as Jay, has a far journey ahead of him. People only call him by his full name when they're his friends. One group of friends are on a journey together. They live in the Karloff country where everything was quite peaceful, but it has taken a turn. The horrors of the outside world start to impact all of Karloff's families. Along Jay and his friends journey, they will find out for themselves. Soon.

I think that people who love horror, fiction, and scary storylines should definitely read this book. I have to admit that the start is boring, the same reason I gave it a 9 out of 10, but, if you look into it and keep reading you will see that there's so much more. People might see it differently than me, but I would suggest this book to my friends. Its a fascinating read.

Horror fans would mostly love this book. It has pages that make you want to keep turning them more and more. Like, for example: "We made their deaths mean something." On page 325. It makes it spooky and interesting to readers. My favorite parts of this book are probably the horrible and funny ones. But, I will not spoil this amazing outcome of a book. So, in conclusion, this book is awesome and people need to read it.
