Historical fiction

Other:

First, the main character who's name is Keegan Bishop is a champion in skiing. But there was something going on that was suspicious to him. He saw a wire that could be harmful to other skiers. He met a girl, and a man who was strangely familiar. And then he decided to go snowboarding instead of his usual skiing that he's used to. He was trying to catch a person who was in the act of harming others with a wire.

I think that people should read this book because it is fun to find out the mystery as the reader goes further and further into the book. Each part gets stranger for the protagonist. At the start, the book talks about how and why Keegan Bishop became a champion, and why he keeps doing it everyday. But then, things start to change for him. I find that this is interesting to me. So I think that other people will like it because of how the story goes.

The reader that will enjoy it is a person who loves adventure the most. Keegan goes through many different places and meets different people so this type of reader would love this book a lot. On the other hand, readers who like mystery would like this book too. We as readers do not know what happens until the end of the book so it will be good for them too. It is a page turner.
