The book Scythe is a book about a world without death. The only way for people to die is from people called Scythes. Scythes are people tasked with "gleaning" or killing other people. Citra and Rowan, the two protagonists, become scythe apprentices. They are told some heartbreaking news, only one of them will become a scythe, the other will die

I think that this book is a very well written book. This book is interesting because it is one that keeps you on the edge of your seat. The suspenseful writing causes it to be a book that is hard to put down. I think that every teen who is interested in dystopian novels should consider reading this book. It is very easy to read because the main story line is pretty easy to track and it is not that complicated. Overall, Scythe by Neal Shusterman is a book that all teens should consider reading.
