Horror

Mystery

Nonfiction

Historical fiction

Other:

Divergent written by Veronica Roth is set in the future taking place in Chicago. Supposedly something bad happened in Chicago and society was split up into 5 factions and they are Dauntless, Amity, Candor, Erudite, and Abnegation each showing a different virtue like bravery, kindness, honesty, intelligence, and Abnegation. Tris the main character chooses a faction but deep down she is a divergent, She makes friends, enemies, and even has a love interest. Now Divergent means she doesn't belong anywhere and she fights to survive in the faction she chooses.

In my opinion, Divergent is one of the best books I have ever read in my life. The main character Tris and she is daring, exciting, brave, relatable and she is constantly having character developments making her even more extravagant. The world building is immersive and detailed, allowing readers like myself to fully grasp the complexity of the faction system. Since the characters are so well developed it was easy for me to be invested in their journey throughout this book. Personally I could talk about this book and all of its series and characters for hours but as much as I loved Tris I got to say Four really had me in a lock, I loved his personality and I wish there was a whole book on his back story, but that's just me.

Should people read this book? Short version yes long version is pretty long. However in a shorter long version Divergent is a heart thrilling science fiction. It really has lots of genres. It's fiction , romance, action, a little bit scary and much more it just depends on your version of the book. I love the flexibility as in different meanings this book tells well not really tells its more like a feeling. The whole time I read this book I couldn't keep my eyes off the page and I had to cover the bottom part so I wouldn't spoil the book, but I recommend this book because it opens up eyes to many readers and is a great world to let your mind rest in. I think teens or young adults would enjoy this mostly but books are for everyone. Overall, Divergent offers a compelling narrative that keeps readers hooked from start to finish.

By Valentina C, 9th grade, enjoys reading mystery, fantasy, science fiction, horror, romance, and action/adventure
