After losing the World Cup for over 25 years, The Japanese Football Union has had enough. They were going to take the most desperate measures to ensure their victory. Blue Lock, a soccer training facility, is created. The goal is to make the participating players fight to get to the top of the rankings. The players will have to show the others who has the most ego. After the detrimental battle, the last player standing will become Japan's best striker.

Blue Lock is a very entertaining book with a great story behind it. I enjoyed reading it from start to finish. The book is based mainly around soccer, but I think that people who don't enjoy reading about sports will still enjoy it. One thing about this book that makes it different from others is that it is a manga. Manga books feature a different reading style than other books, and they also contain a lot of illustrations. Blue Lock is a great book for people who want to try to read manga. I highly recommend Blue Lock to anyone in grades 9 and up who enjoys manga, action, or sports.
