The Great Library: Ink and Bone by Rachel Caine is about a world where the library owns all the books in the world, and it is illegal to own books. The main character, Jess Brightwell, is part of a family who does illegal business with these books. At some point he is told by his father to become a scholar at the library to be a spy for his family.

I think The Great Library: Ink and Bone by Rachel Caine was interesting to read in most parts, but there are times where I found the book boring. For me The Great Library: Ink and Bone by Rachel Caine was good enough for me to want to read the second book but only because I am curious about what happens next. I think The Great Library: Ink and Bone by Rachel Caine would be much better if it were in first person but that is mostly because I dislike third person limited. I am also not very into dystopia which effects my opinions on the book. I also thought that the plot at times was boring, but most of the time it was interesting. Overall, The Great Library: Ink and Bone by Rachel Caine, is not going to be the book most recommend by me.
