This book is about two boys named Orion and Valentino. They live in a world where people get a call on the day they are going to die. Orion has been sick for a long time, but he is still alive. Valentino just moved to the city and finds out he only has one day left to live. The story shows what happens when they meet and spend the day together.

I liked this book because it made me think about how important time is. The characters felt real, and I cared about what happened to them. The story was sad, but it also had hope and friendship. The way the author wrote about death and love was very powerful.

I think people who enjoy emotional stories will like this book. It's great for readers who like stories about life, love, and tough choices. Even though it talks about sad things, it helps you see what really matters most in life.
