The Naturals by Jennifer Lynn Barnes follows 17-year-old Cassie Hobbes, a girl with a natural knack for profiling. After getting a mysterious message from the FBI, she joins an undercover group called the Naturals which utilizes teens with innate abilities like Cassie's to solve cold cases. When a new killer makes themselves known, the Naturals know that there is something fishy going on, and they soon know that they will have to take charge of this case, unclear if it means sacrificing their lives.

As the star rating suggests, I really enjoyed this book. The Naturals is a fast-paced mystery that keeps you hooked and flipping the pages, and I see many readers (whether you read mystery or not), really liking it. The novel is a nail-biting thriller from front to back and includes a romance filled with tension and anticipation that I just couldn't seem to put down.

I would recommend this book for those who want to be enthralled by their novels and get excited with big plot twists. But really, I'd recommend it to anyone open to the idea.
