Unwind follows three teenagers, who are scheduled to be "unwound," a process where their bodies are dismembered and harvested for donation. These parts are donated and given to people in need. The government establishes propaganda saying that it is an honor to be unwound and that the unwound live on, except in a divided state. The novel follows these three teenagers in their flight from the government and their journey along the way.

People should read the book as it is a great depiction of a dystopian fantasy. There are hints of underlying romance, there's action, political tension, and intense suspense. The novel keeps you on your toes and doesn't let you off them. The uniqueness of the novel's system and political complexity, shaped with teenagers whom you can relate to, gives a great experience and sets me looking for the sequel.
