The novel is about an 18-year-old girl named Emika Chen who works as a bounty hunter and a waitress. Emika lives with her roommate, Keira, in a tiny studio, and both girls are unable to pay their landlord, Mr. Alsoble. However, Emika's life takes a turn after a hacking incident on the famous game, Warcross, after which she is hired by the creator of the game, Hideo Tanaka, to hunt for a mysterious guy named Zero.

I really liked this book. This book's plot is well designed, and it is interesting. Also, the story is fast-paced, which I like because it keeps the plot exciting. It also had a lot of detail about the game Warcross, which allowed me to picture it in my head with good detail. My only problems with the book are that the romance in the book was a bit rushed, or even unnecessary, and that some of the plot was a bit predictable. Nonetheless, this is still an extremely thought-out book, which is why I gave this book a 9/10.
