Cassie Miller's "Meet me Under the lights is a contemporary romance (Ya) style. The book explores the themes of friendship, having the courage to pursue what really matters to the characters, and most importantly self-discovery. It follows a story line of two young adults following their dreams and slowly making their way into each other's life's under the lights.

In my opinion the book was wonderful, I enjoyed the writing as it was at a good pace that keeps readers engaged but yet still focused on whats happening right there and then. The romance itself was well blended between love and self love, I really loved seeing that come together. Cassie Miller perfectly captures the emotional roller coaster of ups and downs that people go through and portrays it through her characters; making readers like me feel connected to the story line as it is relatable.

This book is totally worth reading it was such a gem for YA romance books, of course if you enjoy character driven books that has an emotional depth to it. Overall this book was an uplifting read that I think stands out to young adult readers and should be appreciated if read by the right person for romance, self-love, self-discovery, and a warm read that will leave you wanting more to read.
