It Goes Like This is about four teenage girls who used to be in famous pop band together. A bad fight broke up their band and ended their close friendship. But when a big storm hits their hometown, the four ex-best friends must come back together to play one last charity concert.

I think people should read this book if they love music and stories about friendship. It does a great job showing how hard it is to fix a broken friendship and trust someone again. The romance in book is also very sweet and emotional. It is a great book for anyone looking for a happy and heartwarming story.

However, the book changes between four different viewpoints, which can make the story feel a it slow at times. It is also a little hard to believe that young teenagers could become the biggest pop stars in the world. Still, it is perfect book for readers who like stories about music and teenage life.
