Jujutsu Kaisen written and illustrated by Gege Akutami, follows Yuji Itadori, a 15 year old highschooler with extraordinary physical strength. Yuji lives a fairly calm life until one day in order to save his friends from violent cursed spirits, he swallows the finger of the most powerful curse in history, known as Ryomen Sukuna, the King of Curses. This essentially makes him a vessel of that cursed spirit. Yuji is then tasked by sorcerers (people who exorcise curses) to consume the remaining 19 of Sukuna's fingers before facing his inevitable execution.

Jujutsu Kaisen was a great read and i would love to reread it again later in the future. It is popular for a reason. One thing that stuck out to me the most about this manga is it's power system. Cursed energy is one of the most well written power systems that I've seen in a shonen manga. It is flexible enough to allow characters to express themselves in different ways. Though this manga showcases some dark themes, I would still recommend it to anyone above the age of 9-8 years old because of how exciting it is to read.
