Historical fiction

Other:

Just Another Epic Love Poem is about Mitra, a quiet teenager who has been best friends with Bea for years. The two girls share a notebook where they write an ongoing poem together, and it becomes a place where they can express their feelings and struggles. As Mitra deals with family problems, including her mother's absence and addiction issues, she begins to realize that her feelings for Bea are deeper than friendship. Throughout the story, both girls face challenges involving family, identity, forgiveness, and growing up while trying to figure out what their relationship means to them. The novel mixes poetry and prose to show their journey from close friends to something more.

I really enjoyed this book because the characters felt realistic and easy to connect with. The poetry made the story more emotional and helped show what the characters were thinking in a unique way. I also liked how the book explored friendship, family struggles, and personal growth instead of focusing only on romance! Some parts were sad and frustrating, but that made the story feel more genuine. Overall, I thought Just Another Epic Love Poem was a meaningful and well-written book that kept me interested.
